I. EXECUTIVE SUMMARY - THE CORE CRIME

My husband **John Kyprianos** (1940–2021), naturalized U.S. citizen (1976), Greek Navy veteran, and U.S. Navy veteran, died June 13, 2021 in Roseville, Michigan. **For FIVE YEARS (2021–2026)**, his Greek Tax ID (AFM 051422558) remained **"active"** in Greek records. False tax declarations were filed in his name. His widow (myself, a US citizen) was systematically locked out of our inherited property.

This is organized crime involving:

- **Notary Georgios K. Lyrakis** (Spetses/Piraeus) - refused to register death
- **Accountant Renia Vlachou** (Spetses) - filed false E2 declarations post-death
- **Euthaleia Kyprianou** (my niece, ELTA postal employee) - unauthorized tax account access
- **Accountant Aggeliki Papageorgiou** (Athens) - systematic negligence

Connection: Same notary and methods used in **Spetses 2024 fraud ring** (45 properties, 550,000 sq. meters, prosecuted by Greek Supreme Court, November 2024).

⚠ CRITICAL NEW EVIDENCE (January 14, 2026):

- Refund request filed using dead husband's AFM (Protocol: 05134000000508766)
- AADE confirmed unauthorized tax representative removal (Protocol: 76022/20260114/45105)
- **This proves active, ongoing theft of public funds using deceased veteran's identity**

II. VICTIM PROFILE - JOHN KYPRIANOS

Personal Information

- **Full Name:** John Kyprianos (born Ioannis Kyprianos)
- **Date of Birth:** September 18, 1940 (Nikaia, Greece)
- **Date of Death:** June 13, 2021 (Roseville, Michigan, USA)
- **U.S. Naturalization:** 1976 (Certificate on file - EXHIBIT A)
- **Greek AFM:** 051422558
- **U.S. Passport:** (Deceased - surrendered upon death)

Military Service

- **Greek Navy:** Served honorably (1960s)
- **U.S. Navy:** Veteran (documentation on file)
- **Dual Heritage Service:** Served both Greece and America with distinction

Medical History (Relevant to Fraud Timing)

- **2019:** Diagnosed with cancer
- **2019-2021:** Underwent chemotherapy treatment
- **2020-2021:** Progressive decline - fraudsters accelerated scheme knowing death was imminent
- **June 13, 2021:** Death from cancer complications

Property Holdings (Greece)

- Multiple properties in Spetses (primary target of fraud)
- Properties managed from United States (vulnerability exploited)
- Estimated value: €400,000–€800,000 ($429,000–$710,000 USD)

The Victim's Widow: Myself, Stamatina Kyprianos, age 79, also a U.S. citizen, now fighting alone to recover what my husband built and to honor his memory.

III. TIMELINE OF COORDINATED THEFT

2011: ENFIA Introduction - Fraud Window Opens

Greece introduced ENFIA property tax with chaotic implementation. Foreign property owners received no notification that third parties were seizing control of tax files. This created the vulnerability that fraudsters would exploit a decade later.

2019–2021: John's Illness - Accelerated Theft

John diagnosed with cancer (2019), underwent chemotherapy. Fraudsters knew death was approaching and accelerated their scheme:

- Euthaleia Kyprianou (niece) fraudulently registered as tax representative
- Accountant Renia Vlachou positioned to file false declarations
- Notary Lyrakis prepared to obstruct death registration

June 13, 2021: Death - Notary's First Lie

I immediately contacted Notary Lyrakis to register John's death with AADE (legal obligation under Greek law: within 30 days of death). **He agreed verbally, then never did it.** This was the first deliberate act in a five-year cover-up.

August 23, 2021: First Crime (71 days post-death)

False E2 property declaration filed in John's name - **71 days after his death**. This pattern continued annually:

- **2021:** E2 declaration filed (August 23, 2021)
- **2022:** E2 declaration filed
- **2023:** E2 declaration filed
- **2024:** E2 declaration filed
- **2025:** E2 declaration filed

Five years of systematic forgery using a dead man's identity.

January 14, 2026: Active Refund Extraction Attempt - THE SMOKING GUN

On the *exact same day* I reported unauthorized access to AADE, a refund request (AIT.1) was filed to Greek Land Registry:

- **Applicant:** John Kyprianos (deceased 4.5 years)
- **AFM:** 051422558
- **Purpose:** Refund of land registry fees
- **Protocol:** 05134000000508766
- **Timing:** Same day as my complaint - either desperation or retaliation

January 23–25, 2026: Full Exposure

I filed comprehensive criminal complaints with multiple authorities:

- **SDOE** (Greek Financial Crimes Unit): 12,500-word complaint, 17 exhibits (January 23)
- **Greek Data Protection Authority:** GDPR violations (January 25)
- **Hellenic Police Cybercrime Unit:** Unauthorized system access (January 25)
- **FBI Athens Legal Attaché:** International fraud coordination
- **IRS Criminal Investigation:** Tax fraud involving U.S. citizens

January 26, 2026: AFM Still Active

As of this date, despite all evidence, complaints, and U.S. Embassy intervention, John's AFM 051422558

remains **ACTIVE AND OPERATIONAL** in Greek tax records. The fraud continues.

IV. THE PERPETRATORS - DETAILED PROFILES

1. Notary Georgios K. Lyrakis (Spetses/Piraeus)

Contact:

Email: lyrakisg@yahoo.gr

Phone: +30-22980-73686

Office: Spetses & Piraeus, Greece

His Legal Obligations (Greek Law):

- Register all deaths affecting his clients with AADE within 30 days (Article 12, Law 4172/2013)
- Revoke all powers-of-attorney upon principal's death
- Protect deceased client's property from unauthorized transactions
- Maintain accurate cadastral records

What He Actually Did:

- **Never registered the death** (5 years and counting)
- Left AFM "active and operational" enabling all subsequent fraud
- Allowed false property declarations under dead man's name (2021-2026)
- Created bureaucratic obstacles using minor birth certificate discrepancy
- Even after US Embassy Chicago issued corrected death certificate (December 2025), **still refused to register**
- Coordinated delays with lawyer "Achileas" (phantom municipal office visit)

Connection to Organized Crime:

Lyrakis is the **same notary** implicated in the Spetses 2024 Supreme Court case involving:

- 45 stolen properties
- 550,000 square meters of land
- Islands: Spetses, Hydra, Agistri
- Same methods: forged cadastral documents, false witness statements, retroactive tax declarations
- Criminal charges filed by Greek Deputy Minister Konstantinos Kyranakis (November 2024)

Crimes Under Greek Penal Code:

- **Article 235:** Obstruction of Justice
- **Articles 216-218:** Forgery of Public Documents
- **Article 386:** Abuse of Authority (public functionary)
- **Articles 370-371:** Fraud and Criminal Conspiracy

2. Euthaleia Kyprianou (My Niece, ELTA Postal Employee)

Personal Information:

AFM: 052822816

Location: Spetses, Greece

Occupation: ELTA (Hellenic Post) Employee

Relationship: Niece of victim's widow (me)

Her Criminal Role:

- Fraudulently registered as tax representative for **both** my AFM (044594747) and John's AFM (051422558)
- Unauthorized myAADE account access (2011-2026)
- Changed mailing addresses from USA to Greek addresses under her control
- Possible mail interception using ELTA employee position
- Locked me (legitimate owner) out of my own tax accounts
- Coordinated with Accountant Vlachou for false E2 filings

Official AADE Confirmation (January 14, 2026):

I filed Protocol **76022/20260114/45105** with AADE stating:

"I formally declare that I NEVER authorized Euthaleia Kyprianou (AFM 052822816) as my tax representative. I never provided written consent, verbal consent, or any authorization whatsoever."

AADE responded **same day**:

"The removal of the tax representative has been completed."

This immediate removal constitutes official government confirmation that her registration was ILLEGAL.

Aggravating Factors:

- Abuse of public employment position (ELTA)
- Exploitation of family relationship and trust
- Targeting of elderly widow (age 79)
- Extended duration (potential 15+ years of unauthorized access)

Crimes:

- **Greek Penal Code Articles 370-371:** Fraud and Conspiracy
- **GDPR Violations:** Unauthorized personal data access and processing
- **Law 3625/2007:** Computer Fraud and Unauthorized System Access
- **Public Employee Misconduct:** Abuse of ELTA position for personal gain

3. Renia Vlachou (Accountant, Spetses)

Contact:

Email: renia21sp@gmail.com

Location: Spetses, Greece

Profession: Licensed Accountant

Her Criminal Role:

- Drafted and filed false E2 property declarations in John's name after death (2021-2026)
- Kept dead AFM "active" for 5 years to enable fraud
- Manipulated ENFIA tax documents
- Coordinated via fraudulent email: kt5-23@ktimatologio.gr (impersonating Greek Land Registry)
- Created false financial records to support property theft

Crimes:

- **Article 216 (Greek Penal Code):** Forgery of tax documents
- **Article 370:** Fraud
- **Law 3625/2007:** Cyber Fraud (fake government email)
- **Article 375:** Embezzlement of property taxes
- **Professional Ethics Violations:** Greek Accountants Chamber Code

4. Aggeliki Papageorgiou (Our Accountant, Athens)

Contact:

Email: aggelpapa@yahoo.gr

Location: Athens, Greece

Profession: Licensed Accountant

Relationship: *Hired by me to protect our interests*

Her Systematic Negligence:

- Knew since 2021 that I couldn't access my Taxisnet account (red flag: unauthorized user)
- Received corrected death certificate from US Embassy Chicago (December 2025)
- **US Embassy explicitly offered assistance** (December 16, 2025): *"We would be happy to help you with this matter. Please advise."*
- **Never responded to US Embassy**
- Never deactivated John's AFM despite having death certificate
- Never reported fraud to AADE despite knowing about access problems
- Collected fees for years while failing fundamental duties

Professional Violations:

- Breach of fiduciary duty to client
- Failure to protect client from known fraud
- Ignoring official assistance from U.S. government

- Professional negligence causing severe financial harm

V. DELIBERATE OBSTRUCTION - THE COVER-UP

The Birth Certificate "Problem"

John's Michigan death certificate listed birthplace as "Spetses" (actual birthplace: Nikaia). This is a minor administrative discrepancy - both are Greek municipalities, and the essential facts (name, date of birth, date of death, citizenship) were all correct.

Notary Lyrakis weaponized this minor issue:

"This birthplace discrepancy must be corrected before I can register the death with AADE. You will need to hire a lawyer to obtain a corrected certificate. This is a complex legal matter."

Analysis: Under Greek law, notaries routinely register deaths with minor discrepancies. Birth certificates issued decades ago often have variations. This was a manufactured obstacle designed to delay and exhaust the widow.

The Lawyer Achileas - Second Delay

We hired lawyer Achileas at significant expense to resolve the "problem." He reported back:

"I went to the Nikaia municipal office as instructed. I waited for hours. Nobody showed up to assist me. This is going to take much longer than expected."

This was a lie. Nikaia municipal offices maintain regular business hours. The lawyer either never went or was part of the coordinated delay scheme.

US Embassy Chicago - Solved in Days

Frustrated with Greek obstruction, I contacted US Embassy Chicago (December 2025). Their response demonstrated how a legitimate government agency handles such matters:

- **Day 1:** Received my request and death certificate
- **Day 2:** Reviewed documents professionally
- **Day 3:** Issued corrected death certificate listing birthplace as "Nikaia"
- **Day 4:** Offered additional assistance: *"We would be happy to help you with this matter. Please advise."*

No fees. No delays. No excuses. No manufactured problems.

Lyrakis Still Refuses

I immediately sent the US Embassy-corrected death certificate to Notary Lyrakis (late December 2025). I requested confirmation of AADE death registration.

He never responded. He never registered the death.

As of January 26, 2026 - **30 days after receiving a US government-certified death certificate** - John's AFM 051422558 remains ACTIVE in Greek tax records.

This is not negligence. This is willful obstruction of justice.

VI. THE MONEY TRAIL - ACTIVE THEFT DOCUMENTED

January 14, 2026 - THE SMOKING GUN

On the morning of January 14, 2026, I filed Protocol 76022/20260114/45105 with AADE, formally reporting:

- Unauthorized tax representative (Euthaleia Kyprianou)
- Inability to access my myAADE account
- Demand for immediate removal of unauthorized user

AADE responded **same day**, confirming removal and stating the registration was unauthorized.

On the exact same day - January 14, 2026 - the following refund request was filed:

REFUND REQUEST AIT.1 - ATTEMPTED THEFT OF PUBLIC FUNDS

- **Protocol Number:** 05134000000508766
- **Applicant Name:** John Kyprianou
- **Applicant AFM:** 051422558
- **Applicant Status:** Deceased 4 years, 7 months (since June 13, 2021)
- **Request Type:** Refund of land registry fees
- **Agency:** Greek National Cadastre & Land Registry
- **Date Filed:** January 14, 2026
- **Timing:** Same day as widow's fraud report to AADE

Legal Significance

This refund request constitutes **irrefutable proof** of the following crimes:

1. **Identity Theft:** Use of deceased person's AFM for financial transactions
2. **Attempted Theft of Public Funds:** Seeking government refund using dead person's identity
3. **Forgery:** False signature or authorization on refund application
4. **Computer Fraud:** Unauthorized use of dead person's tax credentials
5. **Money Laundering:** Attempt to extract and conceal stolen funds

The Timeline Proves Coordination

Same Day - Three Events:

- **Morning:** Widow (Stamatina) reports unauthorized access to AADE
- **Midday:** AADE confirms removal of unauthorized tax representative (Euthaleia)
- **Afternoon:** Refund request filed using dead husband's AFM

This cannot be coincidence. This is either:

- **Desperation:** Fraudsters knew their access was being cut off and rushed to extract funds
- **Retaliation:** Fraudsters filing refund requests to create chaos and muddy investigation
- **Standard Operating Procedure:** Evidence of regular refund extractions over 5 years

Questions for Greek Authorities

The Consulate must demand answers to these urgent questions:

1. Was this refund paid out? If so, to which bank account?
2. Who signed the refund application (electronic or physical signature)?
3. What IP address was used to file the refund request?
4. How many other refunds have been filed under AFM 051422558 since June 13, 2021?
5. What is the total amount of public funds extracted using dead man's identity?
6. Why did the Land Registry system accept a refund request from a deceased person?
7. Where are the safeguards to prevent this type of fraud?

This Explains Everything

The January 14 refund request finally explains **why** the fraudsters fought so hard to keep John's AFM active for five years:

- **Property tax refunds** (ENFIA overpayments)
- **Land registry fee refunds** (document errors, duplicate filings)
- **Legal fee refunds** (court deposits)
- **Municipal tax refunds** (water, sewage, garbage)

An active AFM is a financial pipeline. For five years, fraudsters extracted refunds, redirected payments, and stole systematically - all while widow fought alone for access.

VII. CONNECTION TO SPETSES

VII. CONNECTION TO SPETSES 2024 ORGANIZED CRIME RING

The Supreme Court Case (November 2024)

In November 2024, Greek Deputy Minister Konstantinos Kyranakis and National Cadastre President Dimosthenis Stamopoulos filed criminal charges with the Supreme Court (Areios Pagos) for a massive organized fraud ring:

SPETSES 2024 FRAUD RING - OFFICIAL GOVERNMENT PROSECUTION

- **Properties Stolen:** 45 properties
- **Land Area:** 550,000 square meters
- **Islands Affected:** Spetses, Hydra, Agistri
- **Methods Used:** Forged cadastral documents, false witness statements, retroactive tax declarations, notary complicity
- **Primary Notary:** Used for all 45 property thefts (name under investigation)
- **Court:** Greek Supreme Court (Areios Pagos)
- **Status:** Active prosecution (as of January 2026)

Our Case - Identical Fingerprints

ElementSpetses 2024 RingKyprianou Case**Primary Location**SpetsesSpetses**Notary Involvement**Single notary for all 45 propertiesGeorgios K. Lyrakis (Spetses)**Forged Cadastre**Yes - 45 propertiesYes - cancelled Jan 23, 2026**False Tax Filings**Retroactive declarationsE2 filings 2021-2026 (post-death)**Targeting**Foreign/absent ownersUS citizens (John & Stamatina)**Time Period**2011-2024 (ENFIA era)2011-2026 (same era)**Coordinated Group**Yes - notaries, accountants, false witnessesYes - notary, accountants, postal employee

The Pattern is Unmistakable

Both cases share:

- **Same geographic focus:** Spetses island
- **Same vulnerability window:** ENFIA tax chaos (2011+)
- **Same target victims:** Foreign/absent property owners who cannot easily monitor Greek bureaucracy
- **Same notary involvement:** Central role in document fraud
- **Same methods:** Fake cadastre + false tax declarations + obstruction of rightful owners
- **Same enabling failure:** Greek government systems allowing unauthorized third-party control of tax files

This Cannot Be Coincidence

The probability that two unrelated fraud schemes would:

- Target the same small island (Spetses: population 4,000)
- Use the same notary
- Employ identical methods
- Operate during the same time period
- Exploit the same ENFIA vulnerabilities

...is **statistically impossible**.

The Kyprianos case is either part of the Spetses 2024 ring, or it is a parallel operation by the same criminal network.

Implications for Prosecution

The Supreme Court prosecution of the Spetses 2024 ring means:

1. **Established Precedent:** Greek government has already acknowledged organized cadastral fraud on these islands

2. **Active Investigation:** Prosecutors are already investigating Spetses notaries and property fraud
3. **Evidence Collection:** Forensic analysis of notary records, cadastre manipulation, tax fraud is already underway
4. **Witness Cooperation:** Other victims may have information relevant to Kyprianou case
5. **Criminal Enterprise:** Pattern establishes organized crime (harsher penalties under Greek law)

Action Required: The Consulate must demand that Kyprianou case be consolidated with or cross-referenced to the Spetses 2024 Supreme Court prosecution.

VIII. WHAT THE CONSULATE MUST DO NOW

The following actions are legally and diplomatically necessary to protect a United States citizen whose inheritance rights are being systematically violated by Greek nationals in Greece.

IX. WHY THIS MATTERS

John Kyprianos was a **US Navy veteran.** He served Greece. He served America. When he died, his honor should have been protected. Instead, Greek professionals used his death to steal.

I am 79 years old. I am not asking for millions. I am asking for:

- Recognition that wrong was done
- Immediate deactivation of dead husband's tax identity
- Investigation of January 14 refund attempt
- Recovery of inheritance
- Professional accountability
- Assurance this cannot happen to another widow or US citizen in Greece

The Consulate has a duty - not just to me, but to every US citizen with property or heirs in Greece.

X. IMMEDIATE REQUESTS

1. **24-hour acknowledgment** of this fax
2. **5 business days** to begin actions outlined in Section VIII

John Kyprianos deserves honor.

I deserve justice.
