CONFIDENTIAL — IRS Criminal Investigation

Cross-Border Identity Theft, Tax Fraud & Estate Exploitation

AFM 051422558 (deceased) / AFM 044594747 (widow)

April 21, 2026

THE SCHEME

1. **John Kyprianos** (AFM 051422558), U.S. citizen and Hellenic Navy veteran (NATO), died June 13, 2021 in Roseville, Michigan. His death was reported to the IRS; joint-to-widow transition is confirmed across IRS transcripts 2020–2024.

2. **Notary Georgios K. Lyrakis** of Spetses, Greece — the sole official required to register the death in Greek systems — failed to do so for three years. The death was registered only on April 3, 2024, per SKONICAPROT forensic analysis (Protocol 50405-02-2026, p.14). This 1,025-day obstruction is the structural linchpin enabling all downstream fraud.

3. During those three years, the deceased's Greek tax identity (AFM 051422558) remained fully active: ENFIA property tax obligations were issued to a dead person (2021–2023), false E1/E2 income tax returns were filed using the deceased AFM, and in January 2026 — nearly five years after death — an AIT.1 refund attempt of approximately €12,000 was made against the deceased's account.

4. **Efthalia Kyprianou** (AFM 052822816), a niece employed by ELTA (Greek postal service) on Spetses, operated as unauthorized tax representative on the deceased AFM until AADE removal order Protocol 760222026011445105, issued January 14, 2026 — 4 years, 7 months after death.

5. **Accountant Aggeliki Papageorgiou** filed false E1/E2 returns using the deceased AFM. She is named in FBI IC3 Complaint 4 (ref I2502040432132952) and EPPO filing PP.00310/2026/EN.

6. AADE (Greek tax authority) issued its own formal admission of identity theft: **DESYP Protocol Γ 87848** — filed the same day as a retaliatory €945,000 tax demand against the victim, demonstrating coordinated institutional retaliation rather than investigation.

7. When the widow filed complaints, Greek agencies responded with a documented pattern of **deliberate contradictions** (one official confirming a military pension existed, another denying it three times), **circular referrals** (7 attempts over 15 days yielding zero substantive responses), **sham closures** (ΚΕΦΟΚ closing a case without addressing any claims), and **direct threats** to auto-archive complaints as "abusive" — four days after the same agency issued an urgent compliance order on the same matter.

8. **H&R Block** compounded the harm through tax preparer malpractice: filing Form 1116 with a mathematically impossible negative $830,000 foreign income figure, claiming $24,016 in overstated foreign tax credits (2021–2024), and ignoring IRS CP25 correction notices. AAA arbitration is filed (Case 01-26-0001-2493).

9. A **phantom business** (ατομικ■ επιχε■ρηση) was discovered registered on AFM 044594747 (Stamatina's AFM) since 1992 — 29 years before John's death — with status ΕΝΕΡΓΗ (active) as of 2026. Registered at "ΣΠΕΤΣΕΣ 0 ΤΚ:18050" (no street number), ΚΑΝΟΝΙΚΟ VAT regime. This pre-TAXISnet-era creation proves the AFM was compromised decades before Contract 6020, providing the mechanism for fraudulent E1 declarations and false FTCs. AADE's automated systems actively maintain this phantom business, pushing Α.1058/2026 POS compliance obligations to a dead person's AFM (31/03/2026) while ignoring the Δ210/Δ211 complaint for 43+ days. ΕΑΔ (Transparency Authority) accepted ΟΧΛΗΣΗ Protocol 20383 ΕΙ 2026 on KAEK forgery, invoking Art. 4 Ν.2690/1999 (50-day deadline).

10. As of April 7, 2026 — Day 1,761 — this case is under active investigation or filing cross-border across **three jurisdictional layers (35+ agencies), with a parallel U.S. arbitration channel and four new U.S. filings in the final 14 days before this meeting**:

- **JURISDICTION 1: Greece** — AADE, SDOE, Ktimatologio, Εισαγγελ■ας (ΑΒΜ 14678), EAD, Αποκεντρωμ■νη, Συν■γορος, ΑΠΔΠΧ, and administrative court proceedings
- **JURISDICTION 2: United States** — IRS-CI (Case 26236541), FBI IC3 (eaa5459ac668431abdb33a7f545c3282), Senator Slotkin (IMA00176193), Senator Peters (casework opened 07/04/2026), Michigan AG (2026-pa04070146169-A, filed 07/04/2026), Michigan AG (2026-pa03191543458-A), SSA-OIG (fraud report filed 07/04/2026), Michigan APS elder abuse report (filed 07/04/2026)
- **JURISDICTION 3: EU Institutions** — EPPO (5 open files: PP.00179, PP.00267, PP.00281, PP.00310, PP.00464), OLAF (FNS-25098), AFCOS
- **PARALLEL U.S. DISPUTE CHANNEL** — AAA / H&R Block arbitration (Case 01-26-0001-2493)

11. The **U.S.-Greece Mutual Legal Assistance Treaty** (entered force November 20, 2001) Article 9 provides the only mechanism that can compel Greek agency records that have been systematically withheld through domestic channels. Every administrative deflection cycle documented in this package can be resolved by a single MLAT request through the U.S. Attorney General.

U.S. TAX & FINANCIAL NEXUS

Category	Estimated Harm	U.S. Statute	Exhibit
False Form 1116 foreign tax credits (2021–2024)	$24,016	26 USC §7206(1), §7206(2)	E-01
Negative $830,000 foreign income (impossible figure)	Filing fraud	26 USC §7206	E-02
Post-mortem Greek tax obligations on U.S. citizen	€30,000–€60,000 ENFIA + penalties	Tax Treaty Art. XVII/XVIII/XIX	E-03
AIT.1 refund attempt on deceased AFM (Jan 2026)	~€12,000	18 USC §1343 (wire fraud if cross-border)	E-04
Unauthorized representative on deceased AFM (4.5 years)	Facilitating factor	18 USC §1028A (aggravated identity theft)	E-05
ΗΔΥΚΑ audit log destruction/concealment	Evidence tampering	18 USC §1519 (obstruction)	E-06
Phantom business on widow's AFM (active since 1992)	Identity compromise + enabling mechanism	Art. 216 PK (forgery), 18 USC §1028A	E-38, E-39, E-40
NBG post-mortem transactions (438 txns, EUR 21,616)	Wire fraud proceeds	18 USC §1343 (each transaction = separate count)	E-55–E-59
Total estimated direct harm to Stamatina Kyprianos	**€100,000–€210,000**	**Combined jurisdiction**	E-07

Tax Treaty violations: The 1950 U.S.-Greece Convention on Estate Tax and the 1953 Tax Convention (as extended) establish that a U.S. citizen's estate should not be subject to double taxation or post-mortem exploitation. The continued activation of a deceased U.S. citizen's Greek tax identity for 4.74 years — generating obligations, filings, and refund attempts — constitutes a systematic violation of treaty obligations that directly affects U.S. Treasury interests.

WHAT HAS CHANGED SINCE THE MARCH 11 INTERVIEW

SA Zacheranik last met with Stamatina on March 11, 2026. In the 41 days since:

Date	Action	Significance
Mar 31	AFM error corrected in binder (C-10/C-11)	Phantom business confirmed on Stamatina's AFM 044594747, not John's
Apr 1	Appendix B (Death Registration Obstruction) committed	1,025-day gap fully documented with 7-agency notification table
Apr 3	Banking forensics E-55–E-61 committed	438 post-death transactions / EUR 21,616 / IBAN GR03...47074777757
Apr 3	T-13 actor identified: Efthalia Kyprianou (self-inserted)	Timeline event now has named perpetrator
Apr 4	Tab 5 expanded to 66 exhibits (E-48–E-63)	All exhibits closed; no open gaps
Apr 5	Tab 8 (Damage Quantification) created	$24,016 US fraud + Greek property fraud + 1,761-day pension erasure chain
Apr 7	MI-AG complaint filed: 2026-pa04070146169-A	Second Michigan AG docket — elder financial exploitation
Apr 7	SSA-OIG fraud report filed	U.S. Social Security Administration — post-mortem benefit exploitation
Apr 7	Michigan APS elder abuse report filed	Protective Services — Stamatina as victim of financial elder abuse
Apr 7	Senator Peters casework opened	U.S. Senate channel active alongside Senator Slotkin
Apr 7	SDOE default notice filed	Greek tax investigation agency — formal default on phantom business
Apr 7	Manifest fully populated (build_commit: ec264ec)	459+ protocols / 66 exhibits / build_date 2026-04-07T23:59:00Z

Protocol count: 412+ (March 11) → 459+ (April 7). Exhibit count: 40 → 66. Binder tabs: 7 → 8.

THIS PACKAGE REQUESTS

IRS-CI initiate MLAT Article 9 requests to compel production of Greek agency records (see Tab 6), coordinate with DS Agent Athens on Lyrakis investigation, and assess criminal referral for H&R Block tax preparer fraud. Full ask list at Tab 7.

TAB 2: CONTRADICTION MATRIX

Documented Contradictions Establishing Willfulness

Each row below documents a verifiable contradiction in the official record. The "Intent/Impact" column frames the contradiction in terms relevant to federal investigators: what the contradiction proves about knowledge, concealment, or coordination.

Matrix

#	Date(s)	Agency	Statement A	Statement B	Contradiction	Intent/Impact	Exhibit
C-1	09/03 vs 11/03, 13/03, 16/03/2026	ΕΦΚΑ (Κακλαμ■νου vs Παπαστα■ρου)	Κακλαμ■νου (Τοπικ■ Α' Πειραι■ς, 09/03): "■ταν συνταξιο■χος ΠΝ" — confirmed military pensioner	Παπαστα■ρου (Δ' Δ/νση, 3 separate emails): "ουδ■ποτε ■λαβε σ■νταξη" — NEVER received pension	Same agency, same AFM 051422558, diametrically opposite factual claims about pension existence	**Willful concealment**: If pension existed, someone collected it post-mortem. If it didn't, Κακλαμ■νου made a false statement. Both answers implicate fraud. ΗΔΥΚΑ audit logs (demanded, met with silence) would resolve this — silence itself is evidence of concealment.	E-10, E-11
C-2	16/03/2026 (same day)	ΥΠΕΣ vs Αποκε ντρωμ■νη Διο■κηση	ΥΠΕΣ ΑΠ 14693 (Δραμου νταν■/Κυρ■μη ς): "No legal defect found in Certificate 504"	Αποκεντρωμ■ν η Πρωτ. 18058: ΕΠΕΙΓΟΝ order to Δ■μος Σπετσ■ν — produce file, prove notification, submit analytical memo. Non-compliance = disciplinary	Two state organs issue diametrically opposite conclusions about the same certificate on the same day	**Institutional coordination failure or deliberate cover**: ΥΠΕΣ dismisses while its own oversight body orders urgent compliance. One of them is wrong — and both knew the other's position.	E-12, E-13
#	Date(s)	Agency	Statement A	Statement B	Contradiction	Intent/Impact	Exhibit
C-3	16/03 vs 20/03/2026 (4 days)	Αποκεντρωμ■ν η Διο■κηση Αττικ■ς	Πρωτ. 18058 (16/03): ΕΠΕΙΓΟΝ — orders municipality to comply, threatens disciplinary	Πρωτ. 19466 (20/03): Threatens to auto-archive complainant's filings as "κατα χρηστικ■" (abusive)	Same agency reverses from urgent compliance order to threatening the complainant in 4 days	**Retaliation against complainant**: After issuing ΕΠΕΙΓΟΝ, Απο κεντρωμ■νη pivots to silencing the person who forced the order. Filed with Greek prosecution (#381) as	E-14, E-15

#	Date(s)	Agency	Statement A	Statement B	Contradiction	Intent/Impact	Exhibit
						Art.222 ΠΚ obstruction of justice.	
C-4	2021–2024 (3 years)	AADE / Notarial Chamber	Death occurred June 13, 2021 (Michigan death certificate on file — Exhibit E-01)	AFM 051422558 remained active in AADE systems until April 3, 2024 (1,025 days post-mortem)	A dead person's tax identity was maintained as "active" for nearly 3 years	**Structural enablement**: Lyrakis's 3-year non-registration is not negligence — it is the prerequisite for every downstream fraud event. Without the gap, none of the false filings, ENFIA bills, or refund attempts could have occurred.	E-16
C-5	03/03–27/03/2026 (24 days)	ΕΦΚΑ — Multiple Directorates	7 separate formal requests for substantive response on complaint ΑΠ 419690	Result: 4 circular redirections (Ντσο■νου→Σαρδελ■→Παπαστα■ρου→Καραγι■ννη→Δ/νση Αναφορ■ν), zero substantive response	Deliberate circular referral — no directorate accepts ownership of a complaint about pension fraud	**Systematic obstruction**: The "φα■λος κ■κλος" (vicious cycle) is not accidental. Each redirect adds delay, consuming statutory deadlines. Only a federal MLAT request (Tab 6) can break this pattern.	E-17
C-6	12/03–23/03/2026	AADE/ΚΕΦΟΚ	Substantive tax complaint filed (502801/20260312/44921) regarding unauthorized filings on deceased AFM	ΚΕΦΟΚ closes case without addressing any substantive claims	Sham closure: appearance of investigation without actual review of the complaint	**Evidence of institutional complicity**: Closing a case removes it from active monitoring. Challenged via formal MyAADE request 585962 (#380).	E-18
C-7	19/03–27/03/2026	ΕΦΚΑ/ΗΔΥΚΑ	Audit log preservation demand sent (Protocol #343, #384) citing GDPR Art.5§1(στ), Art.32, and 18 USC §1519	ΗΔΥΚΑ: Complete silence for 5+ days. ΕΦΚΑ routes to 5 directorates (#387/ΑΠ 609161) but provides no audit logs	**Binary trap**: If logs exist, they show who accessed/modified AFM 051422558 records. If they don't exist or were destroyed, that is itself a GDPR violation and potential 18 USC §1519 obstruction	**Evidence tampering or destruction**: Under 18 USC §1519, concealing or destroying records relevant to a federal investigation is a federal crime. The ΗΔΥΚΑ silence, after formal demand citing both Greek and U.S. law, constitutes evidence of concealment. ΑΠΔΠΧ Art.77 complaint filed (#385).	E-19

#	Date(s)	Agency	Statement A	Statement B	Contradiction	Intent/Impact	Exhibit
C-8	Feb–Mar 2026 (5 deflections)	Κτηματολ■γιο	5 successive responses claiming αναρμοδι■τητα (lack of jurisdiction) for KAEK 050681726008	Deputy Minister of Interior forwarded the filing to Ktimatologio leadership (#379) — confirming it IS their jurisdiction	An agency denied jurisdiction 5 times for a matter that its own Minister confirmed belongs to them	**Deliberate jurisdictional evasion**: The deflections are not honest mistakes — they are a pattern of avoidance exposed only by political intervention at the Deputy Minister level.	E-20
C-9	14/01 vs 03/02/2026 (20 days)	AADE (TAXISnet vs my.AADE portal)	AADE Protocol 760222026011 4/45105: Removes Efthalia Kyprianou (AFM 052822816) as unauthorized tax representative on deceased AFM 051422558	AADE Ticket 4-1770119462538 (03/02): Closes widow's data access request with: "Μπορε■τε να απευθυνθε■τε στον φορολογικ■ εκπρ■σωπο που ■χετε ορ■σει" (contact your tax representative)	Same agency removes a person as fraudulent, then 20 days later directs the victim to contact that same person	**Self-refuting institutional response**: AADE's own systems prove the representative was unauthorized. Directing the victim to that representative is either incompetence (systems don't communicate) or deliberate obstruction (dead-end routing). Either conclusion proves the domestic system cannot self-correct. Context: 38 formal requests over 10 months, zero resolution.	E-21
C-10	1992 vs 2026 (34 years)	AADE (comregistry)	AADE comregistry shows business activity on **AFM 044594747** (Stamatina Kyprianos, U.S. citizen), registered 26/05/1992, status ΕΝΕΡΓΗ, address ΣΠΙΕΤΣΕΣ 0 ΤΚ:18050, Β-Α ΠΛΟΓΡΑΦΙΚΑ, ΚΑΝΟΝΙΚΟ ΦΠΑ	Stamatina Kyprianos never created, operated, or authorized any Greek business. She has never filed a Greek business tax return. 43-day silence on Δ210/Δ211 complaint about this phantom registration.	A living U.S. citizen has a 34-year-old phantom business on her AFM that she never created. The 1992 registration predates TAXISnet — someone walked into a physical DOY office and created this. 43-day silence proves AADE cannot explain its own records.	**Unauthorized identity use since 1992**: The phantom business on Stamatina's AFM is the earliest known identity compromise — 29 years before John's death, 32 years before any known actor entered the picture. The question of who registered this is foundational. AADE's own comregistry confirms the registration; AADE's complaint system refuses to investigate it.	E-38, **E-40** (myAADE comregistry screenshot 31/03/2026)

C-9	14/01 vs 03/02/2026 (20 days)	AADE (TAXISnet vs my.AADE portal)	AADE Protocol 76022/20260114/45105: Removes Efthalia Kyprianou (AFM 052822816) as unauthorized tax representative on deceased AFM 051422558	AADE Ticket 4-1770119462538 (03/02): Closes widow's data access request with: "Μπορε■τε να απευθυνθε■τε στον φορολογικ■ εκπρ■σωπο που ■χετε ορ■σει" (contact your tax representative)	Same agency removes a person as fraudulent, then 20 days later directs the victim to contact that same person	**Self-refuting institutional response**: AADE's own systems prove the representative was unauthorized. Directing the victim to that representative is either incompetence (systems don't communicate) or deliberate obstruction (dead-end routing). Either conclusion proves the domestic system cannot self-correct. Context: 38 formal requests over 10 months, zero resolution.	E-21
C-11	31/03/2026 (same day)	AADE (myAADE + Ticket system)	myAADE pushes Α.1058/2026 POS compliance to **AFM 051422558** (John Kyprianos, deceased 13/06/2021) at 1:00 AM — treating a dead man's AFM as having active business obligations	The actual phantom business is registered on **AFM 044594747** (Stamatina) — a different AFM. AADE Ticket: 43-day silence on Δ210/Δ211 complaint about same phantom business.	AADE generates POS compliance obligations against a **dead person's AFM** (051422558) for a phantom business registered on a **different living person's AFM** (044594747). Cross-AFM routing proves the two identities are interlinked in the system. Meanwhile, the human complaint system ignores complaints about the same phantom business for 43 days.	**Cross-AFM system-level self-incrimination**: The Α.1058/2026 push to a dead man's AFM is a machine-generated admission that AADE's records are systemically corrupt. The cross-AFM routing of compliance obligations proves the system cannot distinguish between the deceased's identity and his widow's — or is deliberately conflating them. 43-day silence is the human component choosing not to look.	E-38, E-39, **E-40**

C-9	14/01 vs 03/02/2026 (20 days)	AADE (TAXISnet vs my.AADE portal)	AADE Protocol 76022/20260114/45105: Removes Efthalia Kyprianou (AFM 052822816) as unauthorized tax representative on deceased AFM 051422558	AADE Ticket 4-1770119462538 (03/02): Closes widow's data access request with: "Μπορε■τε να απευθυνθε■τε στον φορολογικ■ εκπρ■σωπο που ■χετε ορ■σει" (contact your tax representative)	Same agency removes a person as fraudulent, then 20 days later directs the victim to contact that same person	**Self-refuting institutional response**: AADE's own systems prove the representative was unauthorized. Directing the victim to that representative is either incompetence (systems don't communicate) or deliberate obstruction (dead-end routing). Either conclusion proves the domestic system cannot self-correct. Context: 38 formal requests over 10 months, zero resolution.	E-21
C-12	11/09/2020 vs 24/10/2024 (4 years)	Notary Georgios K. Lyrakis (self-contradiction)	Contract 6020/2020 (11/09/2020): Lyrakis created a bare-ownership/usufruct split on KAEK 05134 000000508766 — assigning Stamatina "ψιλ■ κυρι■τητα" and Ioannis "επικαρπ■α"	Email 24/10/2024 (lyrakisg@yahoo.gr): Lyrakis instructs Stamatina to correct the record from "ΨΙΛΗ ΚΥΡΙΟΤΗΤΑ" to "ΠΛΗΡΗ ΚΥΡΙΟΤΗΤΑ 100,00/100,00" citing Proika Deed 2777/06-04-1972 and N.1329/1983 Art.56 — confirming she has been full owner since 18/02/1983	The same notary who created the false split in 2020 admitted in 2024 that the split was legally impossible. He cited the exact law (N.1329/1983) that made his own deed invalid. The usufruct he assigned to Ioannis could not exist because Ioannis had zero property rights since 1983.	**Devastating proof of criminal intent**: A notary cannot claim error when he later identifies the exact statute that prohibited his own act. The 4-year gap between fraud (2020) and admission (2024) proves he knowingly maintained the false structure while it generated ENFIA, false E1/E2 (KAD 319 instead of 320), and $24,016 in fraudulent FTCs. When confronted (26/02/2026), he issued a SLAPP threat rather than an explanation. Behavioral pattern: create fraud → delay exposure → gaslight victim → threaten when caught. Filed as disciplinary complaint Πρωτ. 166/13.02.2026	E-04, E-05, Appendix B

This is systematic administrative deflection designed to close cases without investigation. The identical-boilerplate anomaly is the strongest single proof that ΚΕΦΟΔΕ operates a sham-closure pipeline. AADE deflects substantive response, KG Pireos refuses without legal basis, ΑΕΑΔ loses 17 protocols, ΔΕΣΥΠ loses attachments. The probability of four independent administrative failures on the same day is negligible — this is coordinated obstruction.	**Coordinated multi-agency obstruction**: When four agencies simultaneously fail on the same day, the inference of coordination is overwhelming. This is not administrative incompetence — it is a synchronized response pattern designed to exhaust the complainant across every channel. For IRS-CI: proves the obstruction extends beyond any single agency and constitutes a systemic cover-up of the underlying fraud. The zero-attachment anomaly (ΑΕΑΔ + ΔΕΣΥΠ) is independently verifiable through system logs.	E-93, E-94

PATTERN ANALYSIS

The 17 contradictions above fall into six categories that demonstrate a **systemic**, not individual, failure:

Within-Agency Contradictions (C-1, C-3, C-9, C-10, C-11)

The same institution issues opposite statements or takes contradictory actions about the same fact. This proves **internal knowledge** that is being selectively deployed — one official knows the truth while another denies it, or the same system removes a person as fraudulent then directs the victim to contact them.

Cross-Agency Contradictions (C-2, C-14)

Different state organs reach opposite conclusions about the same fact on the same day. This proves either a complete **failure of inter-agency coordination** or a deliberate strategy to issue contradictory responses to exhaust the complainant.

Self-Contradictions Through Process (C-5, C-6, C-8, C-13, C-15)

Agencies contradict their own stated purpose through circular routing, sham closures, jurisdiction denials, and phantom service delivery. The response is **performative, not substantive** — designed to create the appearance of activity while ensuring no investigation occurs. C-15 (myKEPlive) extends this pattern to the digital remedy channel itself — the system designed to bypass physical-presence barriers produces the same phantom compliance as every other channel.

Silence as Evidence (C-7)

When an agency that holds records refuses to confirm or deny their existence after a formal preservation demand citing both Greek and U.S. law, the silence constitutes **evidence of concealment**. Under the Aguilar/Spinelli/Gates framework for evaluating information source reliability, the documented demand-and-silence pattern corroborates the underlying allegation.

Actor Self-Contradictions (C-12)

A perpetrator creates a fraudulent instrument and then, years later, spontaneously admits the legal basis that makes his own instrument invalid. This is not an agency failure — it is **direct evidence of criminal knowledge**. When the same person who committed the fraud later cites the exact statute that prohibits it, the defense of "mistake" or "oversight" is destroyed. The behavioral escalation from fraud (2020) to gaslighting (2021-2024) to self-admission (2024) to SLAPP threats (2026) maps the lifecycle of a notary who believed he would never be challenged by a widow in Michigan.

The Pension Triangle (C-1, C-16) — New Category

The pension question now has a complete evidential triangle: ΓΛΚ confirmed it searched the wrong system (Special pensions — N/A for Navy), ΕΦΚΑ issued contradictory statements internally, and NAT — the correct system — has been silent for T+20. The triangle proves: (a) the pension question has a definitive answer somewhere in the Greek state system; (b) the agencies that should answer are either contradicting each other or refusing to speak; (c) this silence is itself evidence of concealment. The MLAT ask (A-1) to compel NAT records is now supported by three independent documentary bases.

Coordinated Multi-Agency Obstruction (C-17) — New Category

On 24/04/2026, four agencies simultaneously failed: AADE dserv deflected a formal demand with an anonymous generic redirect (E-93), KG Pireos refused a cadastral record request in one line without legal basis (E-94), ΑΕΑΔ registered complaint 25326 with 0 of 17 attachments, and ΔΕΣΥΠ registered Γ 324409 with 0 attachments. The probability of four independent administrative failures on the same day is negligible. This category represents coordinated obstruction — a synchronized response pattern across the entire Greek administrative apparatus designed to exhaust the complainant on every front simultaneously.

For IRS-CI Purposes

Each contradiction independently establishes **willfulness** — the element that separates civil negligence from criminal fraud (26 USC §7201, §7206). Taken together, they constitute a documented pattern of **deliberate obstruction** across Greece's tax, pension, property, and oversight systems, all converging to protect the same set of actors from accountability for exploiting a deceased U.S. citizen's identity.

The full audit trail supporting each contradiction — including email timestamps, protocol numbers, and agency responses — is maintained in the Zeus AI Evidence Architecture (GitHub repository `alexandros-thomson/zeus-ai-evidence-package`, Issue #1), with 405+ commit-tracked entries as of March 30, 2026.

PATTERN SUMMARY

The timeline reveals four distinct phases of criminal conduct:

Phase 0: The Precursor (1992)

Phantom business registered on AFM 051422558 (T-26). This predates all other events by 28 years, proving the AFM was already compromised before Contract 6020. The AADE's 43-day silence on the Δ210/Δ211 complaint confirms institutional awareness.

Phase 1: The Setup (2020–2021)

Contract 6020 executed while John is alive (T-03). John dies (T-04). Lyrakis fails to register death — creating the 1,025-day window.

Phase 2: Exploitation (2021–2024)

False tax filings (T-06), unauthorized tax representation (T-07), property tax on a dead person (T-05), and H&R Block malpractice (T-08) — all enabled by the unregistered death.

Phase 3: Cover-Up (2024–2026)

Death finally registered (T-09) but cover-up intensifies: consciousness-of-guilt panic activation (T-13), SLAPP threats (T-15), contradictory agency responses (T-17/T-19), circular referrals (T-23), and retaliation against complainant (T-22). Each obstruction event generates additional evidence of willfulness.

For IRS-CI: The timeline demonstrates that the fraud was not opportunistic — it required deliberate, sustained action across multiple actors over 4+ years, followed by coordinated institutional obstruction when exposed. This satisfies the willfulness requirement under 26 USC §7201 and §7206.

TAB 4: ACTOR MAP

Identified Actors, Roles, and Evidentiary Links

This tab maps every actor identified in the evidence record, their role in the scheme, their documented actions, and the exhibits establishing their involvement. Actors are grouped by function: Perpetrators, Enablers, Institutional Actors, and Victims.

PERPETRATORS — Direct Participants in Fraud

Actor	Identifier	Role	Key Acts	Statute Exposure	Exhibits
Georgios K. Lyrakis	Notary, Spetses	Structural linchpin — failed to register death for 1,025 days	Executed Contract 6020/2020 (phantom sale); refused death registration 2021–2024; SLAPP threat 26/02/2026; Protocol 166 vs 136 mismatch	Art. 216 PK (forgery), Art. 386 PK (fraud), 18 USC §1343 (wire fraud)	E-04, E-05, E-07, E-12, E-15
Efthalia Kyprianou	AFM 052822816, ELTA employee, Spetses	Unauthorized tax representative on deceased AFM	Operated as tax rep on AFM 051422558 for 4y 7m post-death; removed by AADE Protocol 76022/20260 114/45105 (14/01/2026)	18 USC §1028A (aggravated identity theft), Art. 386 PK	E-14, E-21
Aggeliki Papageorgiou	Accountant	Filed false E1/E2 returns using deceased AFM	False income tax filings 2021–2024 on dead person's tax identity	26 USC §7206(2) (aiding false return), Art. 386 PK	E-05, E-06
H&R Block / HRB Digital LLC	AAA Case 01-26-0001-2493	Tax preparer malpractice	Form 1116 with -$830,000 impossible figure; $24,016 overstated credits (2021–2024); ignored IRS CP25 notices	26 USC §7206(1), §7206(2)	E-25

ENABLERS — Actors Whose Omissions Facilitated the Scheme

Actor	Identifier	Role	Key Acts/Omissions	Significance	Exhibits
AADE (Greek Tax Authority)	Agency	Maintained deceased AFM as active	AFM 051422558 active 1,025 days post-mortem; issued ENFIA to dead person; issued DESYP Γ 87848 same day as €945K demand	Institutional facilitation of identity theft; 1992 phantom business on AFM still ΕΝΕΡΓΗ; 43-day silence on Δ210/Δ211 complaint	E-13, E-14, E-21, E-38, E-39
ΕΦΚΑ (Social Insurance)	Agency	Contradictory pension records; circular referrals	Kaklamanou confirms pension → Papastavrou denies × 3; 7 requests → 4 circular redirections → 0 answers	Obstruction of federal investigation	E-01, E-02, E-03, E-17

Actor	Identifier	Role	Key Acts/Omissions	Significance	Exhibits
Κτηματολ■γιο (Hellenic Cadastre)	Agency	5 jurisdictional denials for KAEK 050681726008	Denied jurisdiction 5 times; legal shutdown citing Art. 4 N.2690/1999; contradicted by Deputy Minister	Deliberate jurisdictional evasion	E-10, E-11, E-20
Mayor of Spetses	Municipal official	Non-compliance with death registration oversight	Failed to ensure timely processing of death registration; subject of Art. 259 PK criminal complaint	Dereliction of duty enabling downstream fraud	E-21

INSTITUTIONAL ACTORS — Agencies in the Record

KEY CONNECTIONS FOR IRS-CI

1. **Lyrakis → All downstream fraud**: Without the 1,025-day death non-registration, no fraud event occurs. Lyrakis is the single point of failure.

2. **Efthalia** → **AADE** → **H&R Block**: Unauthorized tax rep files enabled false Greek returns, which created false foreign tax data, which H&R Block then used to claim impossible U.S. credits.

3. ΕΦΚΑ **contradiction** → ΗΔΥΚΑ **silence**: The pension exists/doesn't-exist contradiction can only be resolved by audit logs. The 5-day silence on the preservation demand (18 USC §1519) suggests evidence destruction.

4. **€945K demand + DESYP same-day**: AADE admits identity theft and retaliates on the same day — institutional coordination of cover-up.

Exhibit	Title	Source PDF	Date	Key Fact
E-A	Notitia Criminis — Formal Criminal Notice Protocol	proto-source-docs/notitia_criminis_PROTO.pdf	Jan 2026	Formal criminal notice under Greek/EU law — bridges Greek criminal jurisdiction to U.S. federal jurisdiction via IRS-CI. This is the foundational document that establishes the cross-border criminal dimension of the case.

Binder Placement: This exhibit is positioned as Exhibit A (before the numbered exhibits) because it is the jurisdictional bridge document. It establishes that Greek authorities received formal criminal notice, creating the predicate for MLAT Article 9 compulsion.

- **E-90** (1040-X filed 10/04/2026) closes the IRS fraud loop opened by E-45 (Form 1116 fraud)

TAB 6 — MLAT COMPULSION MAP

IRS-CI Evidence Binder | zeus-ai-evidence-package

Case: Stamatina Kyprianos | IRS-CI Case 26236541 | Day 1,763 | HARD FREEZE: April 18, 2026 6PM EDT

> **LEGAL INSTRUMENT:** U.S.–Greece Mutual Legal Assistance Treaty (MLAT), in force 20/11/2001
>
> **AAA ARBITRATION:** Case 01-26-0001-2493 (Kyprianos v. HRB Digital LLC)
>
> **PURPOSE:** This tab maps each custodian holding evidence material to IRS-CI Case 26236541, the legal compulsion mechanism applicable, the specific records sought, and the evidentiary value of production.

DOMESTIC EXHAUSTION NARRATIVE

Before MLAT activation is warranted, the requesting party must demonstrate that domestic legal channels have been pursued and have failed or are insufficient. As of Protocol #486 (April 9, 2026), 486 documented protocols have been filed across U.S. and Greek authorities over 1,763 days since John Kyprianos's death (June 13, 2021). Every request for voluntary disclosure has either been refused, ignored beyond statutory deadlines, or produced materially incomplete responses.

Protocol 4180 ΕΞ 2026 is a self-contradictory administrative response: the Ministry's own MS Bookings extract shows a 3:00–3:20 a.m. Eastern Time customer window for a U.S.-based user, while the response itself attributes the failed myKEPlive appointment to the citizen's non-connection. This is best characterized as institutional deflection through internally contradictory system-generated evidence, not an ordinary service denial.

The following custodians hold records that are:

- **Material** to establishing criminal tax fraud (26 USC §§7206, 7212), wire fraud (18 USC §1343), mail fraud (18 USC §1341), identity theft (18 USC §1028A), and elder financial exploitation
- **Non-producible** through voluntary means given custodian conduct to date
- **Amenable** to compulsion via grand jury subpoena (domestic), MLAT request (cross-border), AAA discovery order, or IRS administrative summons

This map identifies 13 compulsion targets organized by jurisdiction, mechanism, and evidentiary priority.

1	**National Bank of Greece (NBG) — Piraeus Branch**	All account records for AFM 051422558 (John Kyprianos, †June 13, 2021): transactions, signatories, wire transfers, power-of-attorney changes, safe-deposit access logs post-death; supplemental records filed Protocol #479	MLAT Art. 1(a) — Financial records; Greek Law 3691/2008 (AML); Bank Secrecy Lift requested via Eisaggelia Piraia (Prot. #476)	**E-01, E-02, E-44**	Row 1	Establishes 438 post-death transactions on deceased's AFM. Core predicate for wire fraud, identity theft, and elder financial exploitation counts. NBG supplemental filed Prot #479.	
2	**Alpha Bank — Athens / Spetses**	Account records for AFM 051422558 post-June 13, 2021; power-of-attorney documents; signatory change records; all transactions referencing deceased's AFM	MLAT Art. 1(a); Bank Secrecy Lift via Eisaggelia Piraia (Prot. #476)	**E-03**	Row 2	Establishes cross-bank coordination in post-death transaction scheme. Essential for tracing EUR 21,616 confirmed unauthorized movement.	
3	**Piraeus Bank — Keratsini / Spetses**	Same as Rows 1–2; records of any account linked to AFM 051422558 or to properties at Spetses with post-death activity	MLAT Art. 1(a); Bank Secrecy Lift via Eisaggelia Piraia (Prot. #476)	**E-04**	Row 3	Third banking institution implicated in post-death AFM usage. Corroborates systematic multi-bank fraud pattern.	
4	ΕΦΚΑ **(Social Security — EFKA)**	Full pension and contribution records for AFM 051422558 (SSN 369-60-0194); death notification records; any survivor benefit calculations or disbursements post-June 13, 2021; records re: Prot. AP 419690	MLAT Art. 1(b) — Government records; formal demand sent Protocol #484 / EFKA AP 419690 (April 9, 2026)	**E-05, E-06**	Row 4	Confirms whether EFKA received timely death notification. Any post-death pension payments create unjust enrichment. EFKA AP 419690 formal demand sent 09/04/2026 — pending response.

		activity post-June 13, 2021; KED/AADE data mismatch documentation				registration obstruction narrative.	
6	ΔΕΗ **(Public Power Corporation of Greece)**	All utility account records for properties associated with AFM 051422558; account name changes post-June 13, 2021; payment records; last overt act: DEH E-82, 01:08 AM EDT	MLAT Art. 1(a); Greek Law 3463/2006; 18 USC §1341 (mail fraud — last overt act documented)	**E-10, E-82**	Row 6	Last documented overt act in 18 USC §1341 mail fraud clock. DEH continued billing deceased's AFM post-death, establishing ongoing fraudulent enterprise.	
7	Κτηματολ■γιο Ν■σων Αττικ■ς **(Land Registry — Attica Islands)**	Property registration records for all parcels associated with AFM 051422558 on Spetses; Certificate 504 underlying documentation; full chain of title; forwarding request compliance	MLAT Art. 1(b); Art. 4§1 N.2690/1999 (violated x3 — Prot. 448/2026 confirmed third refusal); criminal complaint Art. 259 ΠΚ	**E-11, E-12, E-13**	Row 7	Three written refusals to forward (Prot. 448/2026) constitute criminal violation of Art. 4§1 N.2690/1999 — established duty to forward to competent office within 3 days. Art. 259 ΠΚ complaint grounds confirmed. KT5-23 triple refusal documented. Ktimatologio accepted declaration 051 3400000050874 9 under AFM 044594747 on the dowry/title chain while separately rejecting John Kyprianos's declaration 051 3400000508766 , making any later administrative use of AFM 051422558 in relation to the same Spetses asset a contradiction requiring compelled records explanation.

8	Δ■μος Σπετσ■ν **(Municipality of Spetses)**	Certificate 504 and all underlying documentation; Protocol #175 (ΣΚΟΝΙΚΑΠΡΟΤ) — internal communication documenting KED/AADE mismatch at time of issuance; death registration records	MLAT Art. 1(b); Greek Law 4144/2013; Administrative Code Arts. 4–5	**E-12, E-13, E-48**	Row 8	Municipality internally documented KED/AADE mismatch (Protocol #175/ ΣΚΟΝΙΚΑΠΡΟΤ) yet issued Certificate 504 without correction — institutional trap by design. Prerequisite document for D210 filing and inheritance standing is defective by design.	
9	**IRS / Social Security Administration (SSA)**	SSA death-notification records for SSN 369-60-0194; FATCA death-notification compliance records; Form 1116 filings TY 2021–2024 for Kyprianos account(s); SSA survivor benefit audit records; SSA OIG fraud report filed 08/04/2026 (Prot. #478)	26 USC §7602 (IRS summons); 26 USC §6038D (FATCA); SSA OIG referral Prot. #478	**E-15, E-16, E-17**	Row 9	FATCA death-notification failure by financial intermediaries. SSA OIG fraud report (408 sent 08/04/2026, Prot. #478) filed — pending response. Survivor benefit audit triggered. Establishes U.S.-side failure to properly close deceased's financial identity.	
10	**H&R Block / HRB Digital LLC**	Filed returns TY 2021–2024, preparer notes/ worksheets, MyBlock portal communications, Bree Cox Executive Escalations file (Case 26236541)	AAA Case 01-26-0001-2493; 26 USC §7206	**E-45**	Row 10	BerkowitzOliver LLP appeared as respondent counsel 26/03/2026. ISC confirmed 15/04/2026. Reciprocal document exchange proposed — H&R Block has not confirmed by Apr 4 deadline. **UPDATED: ISC (Initial Status Conference) scheduled April 15, 2026, 09:30 CT. Form 7216 authorization pending Wahl/ BerkowitzOliver.**	Proves false Form 1116 (-$830K negative foreign income), $24,016 overstated Foreign Tax Credits. Identifies Weissgerber (P00694437) and Worman as responsible preparers.

SA ZACHERANIK FRAMING NARRATIVE

This ask list was prepared for the April 21, 2026 IRS-CI Detroit meeting. It accompanies the zeus-ai-evidence-package binder, frozen April 18, 2026. It represents the distilled action requests from 1,763 days of documented evidence collection, 486 documented protocols, and a cross-border identity fraud scheme exploiting the estate and identity of John Kyprianos (†June 13, 2021, SSN 369-60-0194, AFM 051422558) — a U.S. citizen, U.S. Navy veteran, and Hellenic Navy veteran.

Stamatina Kyprianos, widow, age 79 (Roseville, MI), has been denied access to her late husband's estate and financial records for 1,763 days due to a coordinated five-layer inheritance trap involving Greek government agencies, financial institutions, a Greek attorney (Lyrakis G.K.), and domestic U.S. tax preparers (H&R Block / HRB Digital LLC; Greenback Tax Services).

Key facts established as of Day 1,763:

- 486 documented protocols filed across U.S. and Greek authorities
- 438 post-death transactions on deceased's AFM (Greek tax ID) confirmed
- EUR 21,616 confirmed unauthorized movement; total damages Tab 8: €6,600,000 + $24,016 USD
- False Form 1116 foreign tax credits: -$830K negative foreign income, $24,016 overstated credits
- Preparers identified: Weissgerber (P00694437) and Worman (H&R Block)
- AAA arbitration 01-26-0001-2493 (Kyprianos v. HRB Digital) — ISC April 15, 2026 09:30 CT
- Lyrakis G.K.: 3-stage criminal sequence documented; €35 MLAT thread established (Prot. #477)
- ΥΠΕΘΑ (Greek Ministry of Defence) confirmed John's Hellenic Navy service 1963–1965 (AM 101/9963/1961) on April 8, 2026 — establishing his NATO veteran status as documented fact.

New U.S. filings confirmed since Day 1,758 (April 5, 2026):

- MI-AG (Case 2 — elder financial exploitation): filed
- SSA-OIG (FATCA death-notification failure + survivor benefit audit — Prot. #478): filed 08/04/2026
- MI-APS (Michigan Adult Protective Services — elder abuse): filed
- Sen. Peters casework opened: 07/04/2026

DAY-OF ASKS (7) — PRIORITY ACTIONS FOR APRIL 21 MEETING

These are the seven actions SA Zacheranik can initiate or confirm at or immediately following the April 21, 2026 meeting.

D-1: CASE ACCEPTANCE CONFIRMATION

Ask: Confirm IRS-CI Case 26236541 is active and assigned. Confirm SA Zacheranik and SA Pletscher remain the assigned agents.

Why now: 1,763 days since death. First in-person meeting. Case number confirmation locks the investigation timeline.

Evidence anchor: All 502 protocols reference Case 26236541.

D-2: IRS ADMINISTRATIVE SUMMONS — H&R BLOCK (26 USC §7602)

Ask: Issue IRS administrative summons to HRB Digital LLC / H&R Block for all tax return files, preparer worksheets, MyBlock portal records, and internal case notes for Kyprianos account, TY 2021–2024.

Why now: AAA ISC is April 15, 2026. If H&R Block has not confirmed Form 7216 authorization by April 15, IRS summons is the parallel compulsion track.

Evidence anchor: E-45; AAA Case 01-26-0001-2493; BerkowitzOliver LLP appearance 26/03/2026.

Statute: 26 USC §7602; 26 USC §7206 (false returns).

D-3: IRS ADMINISTRATIVE SUMMONS — GREENBACK / TRACY LIAO (26 USC §7602)

Ask: Issue IRS administrative summons to Greenback Tax Services / Tracy Liao for all TY 2022–2024 returns, 1040-X amendments, and correspondence.

Why now: Greenback / Tracy Liao 1040-X deadline is April 14, 2026 (before the meeting). Confirm amendment was filed and subpoena records regardless.

Evidence anchor: E-46; overlap with H&R Block TY period.

Statute: 26 USC §7602; 26 USC §7206.

D-4: FATCA / SSA DEATH-NOTIFICATION INQUIRY

Ask: Confirm whether SSA received timely death notification for SSN 369-60-0194 (John Kyprianos, †June 13, 2021). Confirm whether FATCA reporting obligations were triggered and met. Confirm SSA OIG fraud report (Prot. #478, filed 08/04/2026) has been received and assigned.

Why now: SSA OIG fraud report filed April 8, 2026. FATCA death-notification failure is a predicate for both U.S. and Greek criminal counts.

Evidence anchor: E-15, E-16, E-17; Prot. #478.

Statute: 26 USC §6038D (FATCA); 26 USC §7212.

D-5: MLAT ACTIVATION — DOJ OIA REFERRAL

Ask: Confirm IRS-CI will refer the MLAT compulsion request to DOJ Office of International Affairs (OIA) for activation of the U.S.–Greece MLAT (in force 20/11/2001) targeting:

- NBG (Row 1, Tab 6): 438 post-death transactions
- Alpha Bank (Row 2), Piraeus Bank (Row 3)
- AADE (Row 5): AFM post-death usage
- Lyrakis G.K. (Row 12): €35 wire transfer; 3-stage criminal sequence

Why now: Greek bank secrecy lift request is pending at Eisaggelia Piraia (Prot. #476). MLAT parallel track via DOJ OIA bypasses Greek institutional delays.

Evidence anchor: Tab 6, Rows 1–3, 5, 12; Prot. #476, #477.

Treaty basis: U.S.–Greece MLAT, Art. 1(a)–(b).

D-6: ELDER FINANCIAL EXPLOITATION — FEDERAL COORDINATION

Ask: Confirm IRS-CI will coordinate with:

- Michigan APS (elder abuse report filed)
- MI-AG Case 2 (elder financial exploitation — filed)
- Sen. Peters casework (opened 07/04/2026)

on federal elder financial exploitation charges under 18 USC §§1341, 1343, 1028A for conduct targeting Stamatina Kyprianos (widow, age 79).

Why now: Stamatina is 79 years old. Cross-agency coordination on elder exploitation is a federal priority. Four parallel filings are now active.

Evidence anchor: MI-AG Case 2; MI-APS filing; Sen. Peters casework; all Tab 6 rows.

D-7: LYRAKIS CRIMINAL REFERRAL — CROSS-BORDER

Ask: Confirm IRS-CI will incorporate the Lyrakis 3-stage criminal sequence (Prot. #477 pre-brief) into the international referral package, including:

- Stage 1: Power-of-attorney fraud post-death
- Stage 2: Fee extraction and €35 wire transfer (Art. 216, 259, 386 ΠΚ; KPD 261, 262)
- Stage 3: Coordination with Greek bank records (NBG, Alpha Bank)

ΑΕΑΔ silent rejection clock expires May 8, 2026.

Why now: Prot. #474 (ΑΕΑΔ 22415 Final Escalation) filed. Areios Pagos (Mpakelas) confirmed Art. 42§2 KPD jurisdiction → Eisaggelia Piraia (Prot. #475). Supplemental criminal complaint ABM 14678 filed at Eisaggelia Piraia (Prot. #476).

Evidence anchor: E-47, E-50; Prot. #447, #474–#477; ΑΕΑΔ 21398/21400/21488/21780/21872/22415 EI 2026.

FULL ASK LIST (22 ASKS)

CATEGORY A — TAX FRAUD (IRS DIRECT ACTION)

A-1: False Form 1116 Investigation

Ask: Open or confirm active investigation into false Form 1116 foreign tax credit claims on Kyprianos returns, TY 2021–2024: -$830K negative foreign income, $24,016 overstated credits.

Statute: 26 USC §7206(1) (false return); 26 USC §7206(2) (aiding and assisting).

Responsible parties: Weissgerber (PTIN P00694437), Worman (H&R Block).

Evidence: E-45; H&R Block preparer records.

A-2: Preparer Penalty Investigation — Weissgerber / Worman

Ask: Investigate Weissgerber (P00694437) and Worman for preparer penalties under 26 USC §6694 (understatement due to unreasonable position) and §6695 (other assessable penalties).

Statute: 26 USC §§6694, 6695, 7206.

Evidence: E-45; preparer PTIN records.

A-3: 1040-X Amendment Compliance

Ask: Confirm Greenback Tax Services / Tracy Liao filed 1040-X amendment by April 14, 2026 deadline. If not filed, issue summons.

Statute: 26 USC §7602; 26 USC §6511 (claim for refund).

Evidence: E-46; Prot. #470 (SSA OIG ready, Greenback 1040-X parallel).

A-4: PTIN Suspension — Weissgerber

Ask: Initiate PTIN suspension proceedings against Weissgerber (P00694437) pending investigation outcome.

Statute: 26 USC §6109(a)(4); 31 CFR Part 10 (Circular 230).

Evidence: E-45.

A-5: IRS Identity Theft Flag — SSN 369-60-0194

Ask: Place deceased identity theft flag on SSN 369-60-0194 to prevent further fraudulent filings referencing John Kyprianos's Social Security Number.

Statute: 26 USC §§6103(c), 7212; IRS Identity Theft Program.

Evidence: E-15, E-16; all post-death filings.

CATEGORY B — CROSS-BORDER / MLAT ACTIONS

B-1: DOJ OIA MLAT Referral — NBG (438 Post-Death Transactions)

Ask: Refer to DOJ OIA for MLAT Art. 1(a) request targeting National Bank of Greece (NBG) for all post-death transaction records on AFM 051422558.

Treaty basis: U.S.–Greece MLAT, in force 20/11/2001, Art. 1(a).

Evidence: E-01, E-02, E-44; Prot. #479 (NBG supplemental).

B-2: DOJ OIA MLAT Referral — Alpha Bank / Piraeus Bank

Ask: Include Alpha Bank (Row 2) and Piraeus Bank (Row 3) in MLAT referral for post-death transaction records.

Treaty basis: MLAT Art. 1(a).

Evidence: E-03, E-04.

B-3: DOJ OIA MLAT Referral — AADE (AFM Post-Death Usage)

Ask: Include AADE in MLAT referral for tax records showing post-death AFM 051422558 activity, KED/AADE death-registration mismatch, and ENFIA records.

Treaty basis: MLAT Art. 1(b); FATCA IGAs.

Evidence: E-07, E-08, E-09, E-88.

B-4: Lyrakis €35 Wire Transfer — MLAT Thread

Ask: Activate MLAT track for Lyrakis €35 wire transfer evidence (Art. 261 KPD — international transfer). This is the cross-border financial thread linking Greek attorney misconduct to U.S. bank records.

Treaty basis: MLAT Art. 1(a).

Evidence: E-47, E-50; Prot. #447 (ABM 14678); Prot. #477.

B-5: Greek Criminal Prosecution Support — Eisaggelia Piraia

Ask: Confirm IRS-CI supports Greek criminal prosecution at Eisaggelia Piraia (Prot. #476 — supplemental ABM 14678 with 5 requests including bank secrecy lift) by providing U.S.-side evidence package via MLAT channel.

Treaty basis: MLAT Art. 1(b); Art. 42§2 KPD (jurisdiction confirmed by Mpakelas 08/04/2026).

Evidence: Prot. #475, #476; Mpakelas confirmation 08/04.

B-6: FATCA Institutional Compliance Review

Ask: Review Greek financial institutions' FATCA reporting compliance for AFM 051422558 post-June 13, 2021. Failure to report deceased account activity under FATCA IGA is a predicate for international coordination.

Statute: 26 USC §6038D; FATCA IGA (Greece–U.S.).

Evidence: E-15, E-16; all Tab 6 Row 1–3 bank records.

B-7: ΥΠΕΘΑ */ U.S. DoD — NATO Veteran Benefits Audit*

Ask: Coordinate with DoD IG (submission filed 06/04/2026) and ΥΠΕΘΑ to audit all U.S. and Greek veteran benefit entitlements for John Kyprianos (U.S. Navy; Hellenic Navy 1963–1965, AM 101/9963/1961) — confirmed NATO veteran. Confirm no

post-death benefit payments were fraudulently redirected.

Statute: 18 USC §1343 (wire fraud); 18 USC §1028A (identity theft).

Evidence: E-51, E-52; ΥΠΕΘΑ confirmation 08/04/2026; DoD IG filing 06/04.

CATEGORY C — DOMESTIC U.S. ACTIONS

C-1: Michigan AG — Case 1 Coordination

Ask: Confirm IRS-CI coordination with Michigan AG Case 1 (docket: 2026-pa04070146169-A) for elder financial exploitation charges.

Statute: MCL §400.11 (Michigan APS); 18 USC §1341, §1343.

Evidence: MI-AG Case 1 filing.

C-2: Wire Fraud — 18 USC §1343 Count

Ask: Confirm federal wire fraud predicate established by: (a) post-death AFM 051422558 transactions via international wire, (b) H&R Block MyBlock portal communications, (c) Lyrakis €35 international wire. Open or confirm 18 USC §1343 count.

Statute: 18 USC §1343.

Evidence: E-01–E-04, E-45, E-47, E-82.

C-3: Mail Fraud — 18 USC §1341 Count (Last Overt Act: DEH E-82)

Ask: Confirm 18 USC §1341 mail fraud count using DEH utility billing to deceased's AFM as last overt act (E-82, 01:08 AM EDT). Clock is running.

Statute: 18 USC §1341.

Evidence: E-82; all post-death utility billing records.

C-4: Aggravated Identity Theft — 18 USC §1028A

Ask: Confirm 18 USC §1028A aggravated identity theft count for post-death use of SSN 369-60-0194 and AFM 051422558 on tax returns, bank transactions, and utility accounts.

Statute: 18 USC §1028A (mandatory consecutive 2-year sentence).

Evidence: E-01–E-17; E-45; all post-death AFM usage.

C-5: Grand Jury Referral

Ask: If not already empaneled, request grand jury referral for counts under 18 USC §§1341, 1343, 1028A, and 26 USC §§7206, 7212 for the Kyprianos fraud scheme.

Authority: 18 USC §3332; IRS-CI referral authority.

Evidence: Complete zeus-ai-evidence-package binder (8 tabs + appendices).

C-6: Michigan AG — Case 2 (Elder Financial Exploitation)

Ask: Confirm IRS-CI coordination with Michigan AG Case 2 (elder financial exploitation of Stamatina Kyprianos, widow, age 79, Roseville MI). This case was filed as a separate matter from MI-AG Case 1 and is now confirmed filed.

Statute: MCL §400.11a; MCL §750.174a; 18 USC §1343 (federal overlay).

Evidence: MI-AG Case 2 filing; MI-APS elder abuse report.

C-7: SSA-OIG — Fraud Report Follow-Up

Ask: Confirm receipt and assignment of SSA-OIG fraud report filed April 8, 2026 (Prot. #478) regarding: (1) FATCA death-notification failure for SSN 369-60-0194, (2) survivor benefit audit for Stamatina Kyprianos. Request SA Zacheranik be designated liaison for IRS-CI coordination.

Statute: 42 USC §1320a-7 (exclusion); 18 USC §641 (federal property fraud).

Evidence: Prot. #478 (SSA OIG fraud report 08/04/2026); E-15, E-16.

C-8: MI-APS — Elder Abuse Report Coordination

Ask: Confirm Michigan Adult Protective Services (MI-APS) elder abuse report (filed) has been received and is being coordinated with IRS-CI federal elder exploitation investigation. Request MI-APS case number for binder index.

Statute: MCL §400.11; Michigan Adult Protective Services Act.

Evidence: MI-APS filing (April 2026); Stamatina Kyprianos age 79, Roseville MI.

C-9: Senator Peters Casework — Congressional Coordination

Ask: Confirm that Senator Gary Peters' casework office (opened 07/04/2026) has been contacted by IRS-CI to facilitate agency responsiveness. Congressional casework serves as an independent pressure track on SSA, IRS, and DoD IG response timelines.

Authority: Congressional liaison authority; 5 USC §552 (FOIA acceleration via congressional request).

Evidence: Sen. Peters casework opened 07/04/2026.

CATEGORY D — EVIDENTIARY ASKS (INFORMATION REQUESTS)

D-EV-1: IRS IDTVA File — John Kyprianos / SSN 369-60-0194

Ask: Request IRS Identity Theft Victim Assistance (IDTVA) file for SSN 369-60-0194. Confirm whether any identity theft reports have previously been filed by third parties on this SSN.

Statute: 26 USC §6103(e)(7); IRC §7526A.

Evidence: All post-death return filings.

D-EV-2: ITIN / AFM Cross-Reference

Ask: Request IRS cross-reference any ITIN (Individual Taxpayer Identification Number) applications or usages linked to AFM 051422558 or SSN 369-60-0194 post-June 13, 2021.

Statute: 26 USC §§6109, 7602.

Evidence: AADE records; E-07–E-09.

D-EV-3: Treasury FINCEN SAR Review

Ask: Request FinCEN confirm whether any Suspicious Activity Reports (SARs) have been filed by NBG, Alpha Bank, Piraeus Bank, or any U.S. correspondent bank regarding transactions linked to AFM 051422558 or SSN 369-60-0194 post-June 13, 2021.

Statute: 31 USC §5318 (BSA); 31 CFR §1020.320.

Evidence: E-01–E-04; 438 post-death transactions.

D-EV-4: Phantom Business 1992 — Corporate Records

Ask: Subpoena or request Greek corporate registry records for any entity formed in 1992 or later using AFM 051422558 or John Kyprianos as a registered owner or director. Phantom Business escalation: 10-day silence expired April 9, 2026 (Prot. #486). Five targets notified.

Statute: MLAT Art. 1(b); 18 USC §1343.

Evidence: Prot. #486; Phantom Business add-on (Appendix B).

D-EV-5: PSES (Special Pensions) — GLK-58486 No-Record Confirmation

Ask: Use MLAT track to formally obtain PSES (Special Pensions Service) confirmation that John Kyprianos (AFM 051422558) has NO RECORD in the special pensions database — as confirmed informally by GLK-58486 (E-73). This negative evidence confirms his pension entitlement was never properly registered, establishing a separate thread of estate fraud.

Statute: MLAT Art. 1(b); Greek Law 4387/2016.

Evidence: E-73 (GLK-58486 PSES no record).

A-20: Immediate transfer of survivor's pension (σ■νταξη χηρε■ας) to Stamatina Kyprianos

Request that ΕΦΚΑ/ΓΛΚ/ΝΑΤ:

1. **Immediately establish and transfer** the survivor's pension (σ■νταξη χηρε■ας, N.4387/2016 Art.12) to Stamatina Kyprianos (AFM 044594747) — 50-70% of deceased's pension rate

2. **Back-pay 58 months** (July 2021 – April 2026) plus statutory interest — estimated €14,500+ at minimum pension rates

3. **Identify all pension disbursements** made on AFM 051422558 from date of earliest ΝΑΤ pension payment through present — including pre-2013 legacy system records not visible in ΕΣΕΠΣ

4. **Trace the IBAN(s)** that received those payments (cross-ref Protocol #479 Item 6, NBG Account 438)

5. **Recover diverted funds** from unauthorized recipients and credit to Stamatina's survivor benefit

Why this matters for IRS-CI: The survivor's pension is income Stamatina should have been reporting on US returns since 2021. Its diversion prevented proper US tax compliance and constitutes a continuing violation of the US-Greece Tax Treaty. The pension payments diverted from a US citizen's entitled survivor benefit are not merely Greek administrative fraud — they directly affect US Treasury interests and Stamatina's tax obligations.

The Pension Triangle (Day 1,770):

- Κακλαμ■νου (ΕΦΚΑ local): pension existed
- Παπαστα■ρου (ΕΦΚΑ HQ): never existed (3x)
- ΗΔΥΚΑ/Vachari: zero in new system (2013-present)
- NAT/Varelaki: distributed to 4 directorates at leadership level (searching)

Duration question: If someone has been collecting John's ΝΑΤ pension since he left Greece (~1976), the total diverted amount could be €100,000-200,000+. The IBAN trace answers who collected. MLAT Article 9 compels ΓΛΚ/ΝΑΤ production of the

complete disbursement history.

ASK-PB1: Phantom Business Registration — Originating Act

Classification: IRS-CI Binder Tab 7 Addition

For: April 20, 2026 In-Person Meeting — SA Zacheranik / SA Pletscher

Priority: HIGH — Foundational act enabling all subsequent false filings

---

The Ask

Request AADE to identify, through MLAT or direct production:

1. **The originating registration act** for the business activity on AFM 044594747 (Stamatina Kyprianos) dated 26/05/1992 — including the Δ210 or equivalent physical DOY filing that created this registration

2. **The custodian** — the DOY office (ΔΟΥ Α' ΠΕΙΡΑΙΑ / ΣΠΕΤΣΩΝ) and the registering official (name, employee ID) who processed the 1992 filing

3. **The complete modification trail** from 1992 to present, including:

- Any digital migration records from the physical DOY system to TAXISnet
- All subsequent modifications to business status, VAT regime, or address
- Any linkage records between AFM 044594747 (Stamatina) and AFM 051422558 (John, deceased)
- The system event that generated the Α.1058/2026 POS compliance push to AFM 051422558 on 31/03/2026 — explaining why a compliance obligation for a business on one AFM was routed to a different (deceased person's) AFM

Why This Matters for the Criminal Case

This record establishes the **earliest known date of identity compromise** — 26/05/1992, twenty-nine years before John's death and thirty-two years before any known actor in the current case (Lyrakis, Efthalia Kyprianou, Papageorgiou) entered the picture.

The phantom business registration is the **foundational act** enabling all subsequent exploitation:

- It proves a Greek business identity was created on a U.S. citizen's AFM without her knowledge or consent
- The 1992 date predates TAXISnet entirely — this was a physical DOY filing by someone who walked into an office
- The business remains ΕΝΕΡΓΗ in AADE's current registry despite ΠΑΥΣΗ ΕΡΓΑΣΙΩΝ logged at 31/12/1999
- AADE's automated system continues to generate POS compliance obligations against the deceased husband's interlinked AFM as recently as 31/03/2026

For the U.S. tax fraud case specifically: the phantom Greek business identity is what enabled the false Form 1116 Foreign Tax Credit claims ($24,016 overstated, 2021–2024) that are the subject of IRS CI Case 26236541 and AAA Arbitration Case 01-26-0001-2493. Without the phantom business creating the appearance of Greek tax obligations, the fabricated foreign tax credits on the U.S. returns have no source.

Cross-AFM Finding (NEW — 31/03/2026)

The phantom business is registered on **AFM 044594747** (Stamatina), but AADE's automated Α.1058/2026 POS compliance notification went to **AFM 051422558** (John, deceased 13/06/2021). This cross-AFM routing means:

- AADE's internal systems link the two AFMs in a way that routes business obligations across identities
- A dead man's AFM is receiving compliance notifications for a business registered to his living widow
- The system cannot — or does not try to — distinguish between the deceased and the survivor

This is directly relevant to the false E1/E2 filings (2021–2024) on AFM 051422558 by Accountant Aggeliki Papageorgiou: the system infrastructure that enables cross-AFM confusion is the same infrastructure that was exploited to file false returns.

TAXISnet Backdating Theory (Analysis — 31/03/2026)

The claimed registration date of 26/05/1992 predates TAXISnet by approximately five years. GSIS (the predecessor system) began limited digital operations in the late 1990s, with TAXISnet launching incrementally from ~1999–2002. This creates a critical evidentiary question:

Was the 1992 date a genuine physical DOY filing, or was it a backdated digital entry created during the TAXISnet migration (2000s) with a fabricated start date?

Key indicators supporting the backdating hypothesis:

1. **No physical Δ210 has been produced** — neither AADE nor any DOY office has provided the original registration form
2. **Cessation Declaration #44 filed 31/05/2001** — only 9 years after alleged start, coinciding precisely with early TAXISnet migration period
3. **Business remains** ΕΝΕΡΓΗ **despite** ΠΑΥΣΗ ΕΡΓΑΣΙΩΝ **at 31/12/1999** — a status contradiction that suggests manual database manipulation
4. **Cross-AFM routing to deceased person's AFM** — system-level linkage that would require deliberate configuration, not legacy inheritance
5. **No VAT returns, no income declarations, no business activity of any kind** have ever been associated with this registration

The Critical Record: Creation Timestamp

Under GDPR Art. 15 and the AADE's own data retention policies, every TAXISnet record carries a **creation timestamp** (ημερομην■α δημιουργ■ας εγγραφ■ς) distinct from the **displayed start date** (ημερομην■α ■ναρξης). If the creation timestamp postdates 1992 — for example, showing a 2002 or 2003 insertion date — it would prove:

- The record was **retroactively fabricated** during digital migration
- Someone with DOY or TAXISnet administrative access **deliberately entered a false historical date**
- The phantom business was created not in 1992 but during a period when the actors in this case were active

Additional Ask (A-6 supplement)

Request AADE to produce, through MLAT:

4. **The TAXISnet creation timestamp** (database insertion date) for the business activity record on AFM 044594747 — distinct from the displayed start date of 26/05/1992

5. **The TAXISnet user account or terminal ID** that created or migrated this record

6. **Any batch migration logs** from the DOY-to-TAXISnet transition period (1999–2005) that include AFM 044594747

This data will establish whether the phantom business is a genuine 1992 registration that was later digitized, or a fabricated entry inserted into TAXISnet with a false historical date — the latter constituting forgery of a public record (Art. 216 ΠΚ) in addition to identity theft.

Backdating analysis added Day 1,752 | 31/03/2026

APPENDIX A: CHAIN OF CUSTODY / SOURCE AUTHENTICATION

Machine-Generated Manifest — Integrity Verification

This appendix is automatically generated by the binder build pipeline. It provides cryptographic hash verification for every file included in the evidence package, commit metadata establishing provenance, and a tamper-detection mechanism based on Git's content-addressable storage.

PURPOSE

Every document in this evidence package is tracked in a Git repository (`alexandros-thomson/zeus-ai-evidence-package`). Git's SHA-1 content-addressable storage provides:

1. **Immutable history**: Every change to every file is recorded with author, timestamp, and cryptographic hash
2. **Tamper detection**: Any modification to any file changes its hash, which propagates to the commit hash
3. **Provenance chain**: The commit log establishes when each document entered the repository and who added it

This appendix captures a snapshot of that chain at build time.

The 1,025-Day Gap

Ioannis Kyprianos died on June 13, 2021 in Roseville, Michigan. His Michigan death certificate was issued and available. Despite this, his Greek AFM (051422558) remained **active** in AADE systems until April 3, 2024 — a gap of **1,025 days** (2 years, 9 months, 21 days).

During this 1,025-day window, the following fraudulent acts occurred on the deceased's active AFM:

Event	Date	Actor	Exhibit
False E1/E2 income tax filing (FY 2021)	2022	Accountant Aggeliki Papageorgiou	E-05, E-06
False E1/E2 income tax filing (FY 2022)	2023	Accountant Aggeliki Papageorgiou	E-05, E-06
False E1/E2 income tax filing (FY 2023)	2024	Accountant Aggeliki Papageorgiou	E-05, E-06
ENFIA property tax issued to deceased	2021-2024	AADE automated system	E-13
Efthalia Kyprianou operating as unauthorized tax representative	2021-2026	Efthalia Kyprianou (AFM 052822816)	E-14, E-21
Contract 6020/2020 phantom property sale executed	2020	Notary Georgios Lyrakis	E-04, E-05

Every one of these events required the AFM to be active. The 1,025-day gap is not negligence — it is the structural prerequisite for the entire fraud chain.

The Notary's Role: Georgios K. Lyrakis

Notary Georgios K. Lyrakis of Spetses is the **single point of failure** in the death registration chain.

Documented Acts

1. **Contract 6020/2020**: Executed a phantom property sale during the period when he knew or should have known of John's death

2. **Death registration non-compliance**: Failed to register or facilitate the death registration for 1,025 days (June 2021 - April 2024)

3. **Protocol 166 vs 136 mismatch**: The notarial protocol numbers do not align with the claimed sequence of events

4. **SLAPP threat (26/02/2026)**: Upon being confronted about these irregularities, Lyrakis issued a legal threat against the complainant rather than addressing the substance

The Proika Mechanism: How Lyrakis Created the Fraud Tool

Contract 2777/06-04-1972 (Proika/Dowry Deed): The Spetses property (KAEK 05134000000508766) was given as proika to Stamatina's husband Ioannis. Under pre-1983 law, the husband held formal title, but the property remained the wife's dowry asset.

N. 1329/1983, Article 57: On 18/02/1983, full ownership reverted automatically (*ipso jure*) to Stamatina — no tax, no deed, no transfer required. Confirmed by Areios Pagos (AP 19/1992). From that date, Ioannis had **zero property rights** — no full ownership, no bare ownership, no usufruct.

What Lyrakis did in Contract 6020/2020: Applied a false bare-ownership/usufruct split — assigning Stamatina "bare ownership" (downgrading her existing 100% ownership) and Ioannis "usufruct" (creating a property right from nothing for a person who had none since 1983). This false structure enabled:

#	Consequence	How the False "Usufruct" Enabled It
1	ENFIA issued to deceased (2020-2025)	AADE issued ENFIA to AFM 051422558 as "usufructuary" — without false usufruct, no ENFIA would issue to him
2	False E1/E2 declarations	KAD 319 (Greek resident) used instead of 320 (U.S. resident) based on fabricated income from "usufruct"
3	False Foreign Tax Credits ($24,016)	ENFIA amounts transferred to IRS Form 1116 as "taxes paid in Greece"
4	AIT.1 refund activation on deceased	"Usufruct" justified tax issues on AFM 051422558, creating basis for ~EUR12,000 refund attempt
5	False KT5-23 cadastral declaration (28/08/2019)	Efthalia Kyprianou (AFM 052822816) filed cadastral declaration based on the false ownership structure

Without Contract 6020/2020, none of the above was possible. Lyrakis created the instrument that powered the entire fraud machine.

Lyrakis Self-Contradiction: The Smoking Gun Email (24/10/2024)

On October 24, 2024, Lyrakis sent Stamatina an email explicitly confirming the legal reality he had violated in Contract 6020/2020. In his own words, he stated that the property right should be corrected from "ΨΙΛΗ ΚΥΡΙΟΤΗΤΑ" (bare ownership) to "ΠΛΗΡΗ ΚΥΡΙΟΤΗΤΑ 100,00/100,00" (full ownership 100%) because the property was acquired as proika under the pre-N.1329/1983 provisions of Articles 1412 par.2 and 1414 of the Civil Code, by virtue of Proika Deed 2777/06-04-1972 (Notary Konstantinos Nik. Gidopoulos of Spetses), transcribed in the Spetses mortgage registry at volume 35, number 479. He further confirmed that under N.1329/1983, the proika reverted to the wife in full ownership, possession, and occupation per Article 56.

This is a devastating self-contradiction:

Date	What Lyrakis Did	What It Proves
11/09/2020	Created Contract 6020/2020 splitting property into bare-ownership (Stamatina) / usufruct (Ioannis)	He applied a false property structure he knew was illegal
24/10/2024	Emailed Stamatina confirming she has FULL OWNERSHIP 100% under N.1329/1983	He admitted the split he created 4 years earlier was legally impossible
26/02/2026	Issued SLAPP threat demanding complaint withdrawal	When confronted, he threatened rather than explained

The timeline proves criminal intent, not error. A notary who confirms full ownership in 2024 cannot claim he was unaware of it when he created the false split in 2020. The 4-year gap between the fraud (2020) and the admission (2024) demonstrates that Lyrakis knowingly maintained the false structure while it generated ENFIA charges, false E1/E2 declarations, and $24,016 in fraudulent Foreign Tax Credits.

Behavioral pattern: Gaslighting, delay, lies, obstruction.

- **2020**: Created the false bare-ownership/usufruct structure knowing N.1329/1983 made it impossible
- **2021-2023**: Refused to process death registration for 1,025 days, using false pretexts
- **23/02/2024**: Cited fabricated "birth location mismatch" (N■καια vs. Σπ■τσες) as reason to refuse death registration — a pretext he knew was false because he had personally dealt with Ioannis in Contract 6020/2020
- **24/10/2024**: Casually admitted Stamatina has FULL OWNERSHIP 100% — contradicting his own 2020 deed
- **26/02/2026**: Issued SLAPP threat (moral damages + complaint withdrawal demand) instead of addressing the substance
- **Protocol 166 vs 136 mismatch**: 30-number protocol gap in the same document remains unexplained

This is not negligence. This is a deliberate pattern of creating a fraudulent instrument, delaying its exposure for years, and then threatening the victim when caught.

The 319/320 KAD Fraud: 14-Year False Tax Residency

The false usufruct structure enabled a 14-year tax residency fraud:

- **KAD 319** (Greek tax resident) was applied to Ioannis Kyprianos's tax filings instead of **KAD 320** (foreign/U.S. resident)
- Ioannis was a U.S. citizen, U.S. Navy veteran, and permanent Michigan resident — he was never a Greek tax resident
- KAD 319 generated Greek tax obligations (ENFIA, income tax) that were then used as the basis for claiming Foreign Tax Credits on U.S. returns
- The false "usufruct" created by Lyrakis in Contract 6020/2020 provided the fictional property income that justified the KAD 319 classification
- AADE Prot. 214142 is the formal rebuttal documenting this 319/320 fraud

The fraud chain: Lyrakis false usufruct (2020) → KAD 319 instead of 320 → false ENFIA/E1 to deceased → H&R Block imports as Form 1116 FTCs → $24,016 in fraudulent credits on U.S. returns

Filed complaints documenting 319/320 fraud:

- ΑΕΑΔ (Transparency Authority): Πρωτ. 5135/2026 — Supplemental evidence filed 11/02/2026 connecting forged notarial/cadastral declarations to the 319/320 fraud scheme. Filed with dms@aead.gr and inspector@imepo.gr.
- ΔΕΣΥΠ ΑΑΔΕ: Πρωτ. 5534 ΕΞ 2026 (12/02/2026)
- MinDigital: Πρωτ. 2943 ΕΙ 2026 (27/01/2026) — "Urgent complaint: Systematic tax fraud & inheritance theft — AFM 051422558/044594747 — Connection to Spetses case 2024" filed with Sec. Digital Governance, received via official DMS (protocol@mindigital.gr)

Disciplinary Complaint Filed

Prot. 166/13.02.2026 — Disciplinary complaint filed with Notarial Association (Georgios Gennadiou 4, Athens) under N. 2830/2000, Articles 42-55. Five disciplinary offenses charged:

1. Refusal to process death registration — 5-year obstruction (PK 259, N. 2830/2000 Art. 42)
2. False property rights structure — bare-ownership/usufruct split violating N. 1329/1983 (PK 242)
3. Creating the basis for tax fraud — false "usufruct" enabled false ENFIA, E1, FTCs (PK 386)
4. Obstruction of inheritance succession — death registration refusal blocked widow's rights (PK 216)
5. Enabling deceased identity theft — without death registration, AFM 051422558 stayed active 4.75 years (PK 259, GDPR Art. 17)

Association Response (16/02/2026): Confirmed receipt, forwarded to Lyrakis same day. Stated they lack disciplinary jurisdiction — under Art. 56 par.1 and Art. 67 N. 2830/2000, disciplinary prosecution belongs exclusively to the competent Eisangeleas Protodikou (Piraeus). Lyrakis may respond within 10 days but is not obligated. Note: notaries@hellenicnotaryassociation.gr email delivery failed permanently — complaint was re-sent and received via notaries@notariat.gr.

IRS-CI Relevance: The disciplinary complaint establishes that the complainant raised the false ownership structure issue formally in Greece on 13/02/2026 — before the IRS-CI case meeting. The Notarial Association's deflection to the Eisangeleas confirms that Lyrakis's acts require criminal-level scrutiny, not just administrative discipline. This supports the MLAT Art. 9 request for Lyrakis's notarial file (Tab 6, Row 5).

Municipal Failure: Δ■μος Σπετσ■ν

The Municipality of Spetses bears responsibility for the death registration failure:

- **Mayor of Spetses**: Failed to ensure timely processing of death registration; subject of Art. 259 ΠΚ criminal complaint (E-21)
- **Municipal Registry (**Ληξιαρχε■ο**)**: Did not process the death registration within the legally mandated timeframe
- Αποκεντρωμ■νη Διο■κηση Αττικ■ς: Issued ΕΠΕΙΓΟΝ order (Πρωτ. 18058, 16/03/2026) to the municipality, then reversed to threatening the complainant as "abusive" 4 days later (Πρωτ. 19466, 20/03/2026) — Contradiction C-3

The Downstream Impact: How the Gap Enabled U.S. Tax Fraud

The 1,025-day active AFM window created the conditions for the $24,016 in false Foreign Tax Credits on the U.S. returns:

`

John dies (13/06/2021)

v

AFM 051422558 stays ACTIVE (1,025 days)

v

Papageorgiou files false E1/E2 returns (2021-2024)

v

False Greek tax obligations appear in AADE system

v

H&R Block imports false Greek tax data into Form 1116

v

$24,016 in fraudulent Foreign Tax Credits claimed

v

IRS CI Case 26236541 / AAA Case 01-26-0001-2493

`

Without the 1,025-day gap, none of this happens. Lyrakis's failure to register the death is not a separate issue — it is the enabling act for the entire fraud scheme.

Connection to Phantom Business (Appendix Cross-Reference)

The phantom business registered on AFM 044594747 (Stamatina, 26/05/1992) intersects with the death registration obstruction:

- The 1992 phantom business predates the death by 29 years — identity compromise began decades before exploitation
- AADE's automated Α.1058/2026 POS compliance push to AFM 051422558 (31/03/2026) proves the systems remain interlinked even after death deactivation
- The cross-AFM routing (business on 044594747, compliance to 051422558) demonstrates systemic identity confusion that the 1,025-day gap exploited

For IRS-CI: The One-Sentence Summary

A Greek notary failed to register a U.S. citizen's death for 1,025 days, enabling false tax filings on the deceased's active AFM that generated $24,016 in fraudulent Foreign Tax Credits on the surviving spouse's U.S. returns — and when confronted, every Greek agency either contradicted itself, went silent, or threatened the complainant.

Cadastral Track: Domestic Remedy Exhaustion — AEAD 23063 ΕΙ 2026

On 14/04/2026 (Day 1,768), ΑΕΑΔ Πρωτ. 23063 ΕΙ 2026 was filed and protocolled via ΣΗΔΕ, formally anchoring ΝΔ **0113/2606549** (Κτηματολ■γιο Ν■σων Αττικ■ς Legal Division formal closure) as the domestic remedy exhaustion point for the cadastral track.

What this establishes:

Element	Status
KT5-23 triple refusal (Prot. 448/2026)	Documented — Art. 4§1 N.2690/1999 violated ×3
ΝΔ 0113/2606549 Legal Division closure	CLOSED — formal administrative closure by Cadastre Legal Division
ΑΕΑΔ 23063 ΕΙ 2026	PROTOCOLLED — government-timestamped receipt of exhaustion evidence
Domestic remedies at Κτηματολ■γιο	**EXHAUSTED** — no further administrative avenue available

Significance for IRS-CI / MLAT / ECHR: The cadastral obstruction is no longer a matter of administrative follow-up. All domestic remedies at the Κτηματολ■γιο have been formally pursued and closed. ΑΕΑΔ 23063 is the state-stamped proof of exhaustion, establishing the prerequisite for:

- MLAT Art. 9 compulsion (Tab 6) for cadastral records via IRS-CI
- ECHR Art. 6 / Art. 13 (right to effective remedy) — domestic remedies demonstrably exhausted
- Art. 1 Protocol 1 ECHR (protection of property) — property rights systematically obstructed

WITNESS TESTIMONY — STAMATINA KYPRIANOS

> My husband John served in the Hellenic Navy. He became an American citizen. He worked his whole life. He died on June 13, 2021, in our home in Roseville, Michigan, with his family around him.
>
> After he died, I tried to do what any widow does — settle his affairs, register his death in Greece, protect the property he left me. Instead, I discovered that his identity was still alive in Greek government systems. People were filing taxes in his name. A notary had split my own property and given half to my dead husband. A niece I barely know had been acting as his tax representative for four and a half years after his death.
>
> I have filed 486 protocols across 35 agencies in three countries. I have written to every office, every ombudsman, every prosecutor. The Greek agencies contradict each other. They send me in circles. They threaten to close my complaints as "abusive." One agency confirmed my husband received a military pension; another said he never did. Nobody will show me the records.
>
> I am 74 years old. I am not a lawyer. I am not a criminal. I am a widow in Roseville, Michigan, who has spent 1,763 days trying to get one honest answer from the people who were supposed to protect my husband’s name.

>

> I am asking the United States government to help me get that answer. John deserved better than this. He served. He earned it.

US-Side Fraud Chain ($24,016)

Step 1: Lyrakis creates Contract 6020/2020 — false usufruct split on Stamatina's property

Step 2: KAD 319 (domestic resident) applied instead of KAD 320 (non-resident)

Step 3: KAD 319 triggers domestic ENFIA rates — inflated property tax obligations

Step 4: H&R Block uses inflated ENFIA on Form 1116 — ~$30,000 in claimed foreign taxes

Step 5: Actual creditable foreign taxes: €5,440.63 / ~$5,984 (ENFIA certificates from AADE)

Step 6: Overstatement: $24,016 — claimed against -$830,000 in negative foreign income

H&R Block Contradictions:

- Michael Weissgerber (01/17/2026): "good to know. i don't like making mistakes"
- Bree Cox (01/26/2026): "based on what you entered, it is correct" — closed case
- Mellissa Worman (06/08/2025): "I cannot do what you are asking" — refused IRS CP25
